

# La Gabbianella

MADE IN ITALY SINCE 1967

La Gabbianella was born from the experience of a production and distribution company founded by the Pierallini family, which has been serving the market since 1967. We handcraft ceramics for the home in Italy: tableware and accessories, terracotta bakeware and cookware, small decorative and customizable objects, and furnishing elements. We design our own fabric, created in Italy with high quality yarns and made in our tailor's workshop. All our products are made by our master craftsmen, with traditional techniques, using quality and first choice materials, respecting the environment.

*"Every day we strive to respect and keep alive the centuries-old tradition of the Made in Italy. Ours is a work of creating, crafting, and finishing by many hands working towards one goal: bringing into every home the love for a craft, for a tradition that deserves respect and must be valued. Italian craftsmanship is the very soul of Italy, where stories of knowledge, love and creativity are woven together, a tradition we want to make known to everyone."*

Luca Pierallini

## V "VELLUTO" LINE

Objects brushed by hand and dipped in colorful glazes. This combination creates depth and infinite shades of color, given by the different density of the two elements. The drippings and the various intensities of color are not to be considered a flaw, but a characteristic of this manual workmanship.

# BAKEWARE & COOKWARE

Beloved for their quality of maintaining and enhancing the flavor of the food being cooked in them: soups, sauces, stews, casseroles, legumes and desserts. They bring professionalism and a touch of joy and color to the table.

- BEAN POT: Designed to cook legumes to perfection.
- POTATOE POT: ideal for obtaining hearty potatoes that retain all their flavor.
- STEW POT: Available in four sizes, for cooking stews and soups
- TABLE GRILL.
- OVEN DISHES: Oval, rectangular, round, for roasts, casseroles, pies and omelets.
- PIGGY ROASTER: For cooking to perfection very tender and flavorful meats.
- BREAD POT: For perfect bread

# TERRACOTTA BAKEWARE

Bakeware is only for oven use.

## HOW TO USE:

When the pan is hot, handle with care, as it is more delicate to impacts. Avoid placing on marble or stone. Always use a trivet. Avoid sudden changes in temperature. Use wooden ladles so as not to alter the taste of food.

**Washing:** Wash by hand, but do not use abrasive sponges. Before storing them, let them dry in the open air or in an open and dry place to avoid bad smells and mold.

## Care & Use for Terracotta Cookware & Bakeware

When using the clay pot for the first time, it should be washed thoroughly in warm water. Do not use detergent or soap as this will likely block the delicate pores. Completely immerse the pot and lid in tepid water for at least 4 hours (up to overnight) and then prepare to use it without letting it dry. The pot will absorb a considerable amount of water and it's this liquid which will help create the steaming process. For subsequent uses, you need only rinse the pot and lid briefly, until thoroughly wet. Quick fact: very fine "cracks" also called crazing, will form inside your pot as you use it and are not a defect. These allow the water's microvapors to be released evenly into the food during cooking.

-For gas stovetops (not necessary on electric ranges) a simple kitchen flame diffuser should be used. Your stovetop piece can be used on the stovetop and in the oven. This includes our stew pots & bread pot. **Bake ware is only for oven use.**

-After use, allow to air dry completely before storing. When storing the pot, place the lid alongside rather than on top to allow air to circulate. If the pot is not completely dry when put away and has the lid placed on, it will form a seal. This could cause mold to form on the inside. However the mold will wipe right off, still no soap needed.

-To clean: use a nylon scrubber or brush with a little baking soda. For stubborn stains, soak overnight. Recommended use is 3 tablespoons of baking soda per quart of water.

-It's necessary to take extra care when removing the hot terracotta pot from the oven. Be sure to use oven mitts or baker's pads and place the pot on a trivet, a wooden board or folded towel. If it comes into sudden contact with a cold work surface it could crack. For the same reason, you should always allow the pot to cool down before placing into cold water.

-Over time and with frequent use, your clay pot will darken, retaining scorch marks and stains but developing an appealing patina. If you want to use your pots for both savoury and sweet dishes and you have the storage space, you may want to invest in two pots so that any absorbed flavours won't affect the taste of your recipe.

# BREAD-WARMERS

# TERRACOTTA BREAD WARMER/TRIVET

**HOW TO USE:** The terracotta bread warmer is an original solution to keep bread warm in baskets. Put in a microwave oven at 700W for 1/2 minutes or in the oven for 10 minutes at a temperature of 180° C. With the pot holders, place in the basket and put the sliced bread on top. After use they are perfect for HANGING.

BAU

# HOME FRAGRANCES

An ever-growing collection created with **artisanal fragrances made in Italy, Tuscany**. Made with **essences mainly of natural origin, with a low impact on the environment**. Packaged in elegant glass bottles and wooden lids, in three sizes (100ml; 250ml; 500ml). 50ml sprays to scent drawers and 250ml refills to combine with hand-turned and decorated ceramic diffusers.

# HOME FRAGRANCES

Fragrances handcrafted in Italy. From the study, to the creation of the fragrance, to the filling and packaging. The fragrances are composed predominantly of natural origin essences, with a low impact on the environment of the highest quality and alcohol for cosmetic use.

**Art 5064**  
Home Fragrances  
Refill Bottle  
250 ml

**Art 5060**  
Spray home fragrances  
50 ml

**USE:** Dip the sticks in the bottle of essence; the first time, turn after a day and then remember to invert the sticks twice a week to maintain the intensity of the fragrance (each time the sticks are turned, the scent appears stronger and more perceptible). The duration of these essences is not standard, they generally last one month for every 100 ml of liquid. When the fragrance is finished, it is not necessary to buy back the entire diffuser kit, but the bottle with the replacement of the essences. For an optimal yield, also use new sticks because the fragrances, having an oily consistency, tend to clog the holes in the sticks over time.

**801 TERRA DI MARE- light and marine**

# Fabric

Our Jacquard fabrics, made on Italian Jacquard looms, have exclusive designs. The designs are made with fine yarns of various colors for a textured effect that enhances their value. They have an intentionally "heavy" yet soft and pleasant feel. Their cotton-blend composition makes them particularly resistant to wear, stains and easy to iron. Every single piece is cut by hand and made up in our tailor's shop in Italy, which allows us to offer the made-to-measure service.

# DISPLAY OUR PRODUCTS

Placing the product in the right way within the store is essential to create visual suggestions and recommend endless combinations of merchandise . A curated display , in furniture and interior tables, making creative window displays and in line with the season help with the reading and knowledge of the product . There is nothing more refreshing than entering a store and immediately feeling at home.
