V "VELLUTO" LINE

Objects brushed by hand and dipped in colorful glazes. This combination creates depth and infinite shades of color, given by the different density of the two elements. The drippings and the various intensities of color are not to be considered a flaw, but a characteristic of this manual workmanship.

for flame and oven use
ø cm 29 - H cm 21
Solid € 50,25
Sfumato € 52,50

HOW TO USE:

When the pan is hot, handle with care, as it is more delicate to impacts. Avoid placing on marble or stone. Always use a trivet. Avoid sudden changes in temperature. Use wooden ladles so as not to alter the taste of food.

Washing: Wash by hand, but do not use abrasive sponges. Before storing them, let them dry in the open air or in an open and dry place to avoid bad smells and mold.

COOKWARE AND BAKEWARE **PROMO**

A set designed to get closer to earthenware cooking, at a special price and with a different finish. The classic terracotta pot, suitable for many types of cooking: soups, risottos, roasts, complete with flame-break net. The classic rimmed pan suitable for all preparations in the oven.

Care & Use for Terracotta Cookware & Bakeware

When using the clay pot for the first time, it should be washed thoroughly in warm water. Do not use detergent or soap as this will likely block the delicate pores. Completely immerse the pot and lid in tepid water for at least 4 hours (up to overnight) and then prepare to use it without letting it dry. The pot will absorb a considerable amount of water and it's this liquid which will help create the steaming process. For subsequent uses, you need only rinse the pot and lid briefly, until thoroughly wet. Quick fact: very fine "cracks" also called crazing, will form inside your pot as you use it and are not a defect. These allow the water's microvapors to be released evenly into the food during cooking.

-For gas stovetops (not necessary on electric ranges) a simple kitchen flame diffuser should be used. Your stovetop piece can be used on the stovetop and in the oven. This includes our stew pots & bread pot. **Bake ware is only for oven use.**

-After use, allow to air dry completely before storing. When storing the pot, place the lid alongside rather than on top to allow air to circulate. If the pot is not completely dry when put away and has the lid placed on, it will form a seal. This could cause mold to form on the inside. However the mold will wipe right off, still no soap needed.

-To clean: use a nylon scrubber or brush with a little baking soda. For stubborn stains, soak overnight. Recommended use is 3 tablespoons of baking soda per quart of water.

-It's necessary to take extra care when removing the hot terracotta pot from the oven. Be sure to use oven mitts or baker's pads and place the pot on a trivet, a wooden board or folded towel. If it comes into sudden contact with a cold work surface it could crack. For the same reason, you should always allow the pot to cool down before placing into cold water.

-Over time and with frequent use, your clay pot will darken, retaining scorch marks and stains but developing an appealing patina. If you want to use your pots for both savoury and sweet dishes and you have the storage space, you may want to invest in two pots so that any absorbed flavours won't affect the taste of your recipe.

TERRACOTTA BREAD WARMER/TRIVET

HOW TO USE: The terracotta bread warmer is an original solution to keep bread warm in baskets. Put in a microwave oven at 700W for 1/2 minutes or in the oven for 10 minutes at a temperature of 180° C. With the pot holders, place in the basket and put the sliced bread on top. After use they are perfect for HANGING.

HOME FRAGRANCES

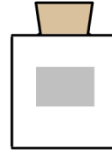

Fragrances handcrafted in Italy. From the study, to the creation of the fragrance, to the filling and packaging. The fragrances are composed predominantly of natural origin essences, with a low impact on the environment of the highest quality and alcohol for cosmetic use.

Refill Bottle
250 ml
€ 13,75

Art 5060
Spray home fragrances
50 ml
€ 6,75

USE: Dip the sticks in the bottle of essence; the first time, turn after a day and then remember to invert the sticks twice a week to maintain the intensity of the fragrance (each time the sticks are turned, the scent appears stronger and more perceptible). The duration of these essences is not standard, they generally last one month for every 100 ml of liquid. When the fragrance is finished, it is not necessary to buy back the entire diffuser kit, but the bottle with the replacement of the essences. For an optimal yield, also use new sticks because the fragrances, having an oily consistency, tend to clog the holes in the sticks over time.

801 TERRA DI MARE- light and marine
OLFACTIVE DESCRIPTION/ marine, flowery, woody
TOP NOTES/ marine note
HEART NOTES/ lily of the valley, violet, lavender, rose, carnation
BASE NOTES / white musk, ambergris, patchouly, sweet woods

THE FABRIC

Our Jacquard fabrics, made with Italian looms bearing the same name, have an exclusive design. The designs are made with fine yarns of various colors for a relief effect that increases their value. They have a deliberately "heavy" hand, but soft and pleasant. Their cotton blend composition makes them particularly resistant to use, stains and easy to iron. Every single piece is manually cut and packaged in our tailor's shop in Italy, and this allows us to offer a tailor-made service.
